

Patent Document Delivery DialogClassic

Dialog's patent delivery service provides delivery of full-text patent documents. This service holds a patent archive with more than 40 million full-text patent documents in original layout, available for electronic delivery using these easy steps.

Step 1: Type ORDER and choose option 1 from the menu. Enter the patents or applications you want to order, separated by a plus sign (+). Include the two-character country code for non-U.S. patents.

```
